Art Unit: 3741

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose nor suggest a fiber cleaning apparatus in which fiber tufts are pneumatically conveyed into the apparatus in a high speed air stream commingled with foreign matter having a revolving cleaning cylinder with teeth on the periphery of the cylinder, an air duct surrounding the air stream and controlling the fiber tufts commingled with the foreign matter, the air duct terminating adjacent the surface of the revolving cylinder to deliver the fiber tufts directly to the teeth of the revolving cleaning cylinder where the air stream engages the revolving cleaning cylinder at conveying velocities and fiber-to-air mass ratios sufficient to prevent agglomeration of the individual fiber tufts being pneumatically conveyed thereon, separating means located at the terminal of said air duct at the surface of the revolving cleaning cylinder to substantially completely separate the conveying air from the desirable fiber tufts as the desirable fiber tufts are substantially completely delivered onto the teeth of the revolving cleaning cylinder without allowing the individual fiber tufts to agglomerate and means adjacent the periphery of the revolving cleaning cylinder to cause the foreign matter to be separated from the fiber tufts.

More specifically, the prior art (U.S. Patent 2,948,022 to Day) does not disclose an air duct surrounding the air stream where the air duct terminates adjacent to the surface of a revolving cleaning cylinder nor an air stream delivering fiber tufts directly onto a revolving cleaning cylinder. The air stream of Day is disposed by the combination of a condenser and air

exhaust. Also, the fiber tufts, in the form of a fiber batt, are transferred to a carding cylinder from the condenser via the saw tooth clothing of the carding cylinder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
